---

What's around the curve? EASTEC 2011 aims to help manufacturers negotiate the tightest curves in the manufacturing world. Liberty Packaging Co., Inc., will exhibit Intercept Technology™ Packaging at this three-day event at Eastern States Exposition in West Springfield, MA, May 17 - 19, 2011.

Sponsored by the Society of Manufacturing Engineers, [EASTEC](#) – the East Coast's largest annual manufacturing event – is centered on five exhibit categories: Design, Engineering, and Rapid Technologies; Tooling, Workholding and Machining Accessories; Automation, Quality and Process Improvement; Plant, Energy, and Environmental Efficiency; and Precision Manufacturing Equipment and Systems.

EASTEC also features resource centers and industry keynotes offering presentations, consultations and opportunities to meet potential business partners.

Liberty represents the Intercept Technology™ line of barrier materials, invented by Bell Labs, featuring Static Intercept® and Corrosion Intercept®, along with ATCI, RIBS MVTR and other Intercept products. [Static Intercept](#) is the most widely used form of Intercept packaging, providing protection from corrosion, ESD, and fungus, short or long term. Manufacturers of metals, machinery, electronics, parts, and more find that they can ship and store safely in even

**“No volatiles, no  
outgassing, no oils - it's  
safe, and works like no  
other packaging.”**

## **FOR IMMEDIATE RELEASE**

**“Intercept plastic has copper embedded and acts as a sacrificial, neutralizing the corrosive gases within the package before they can harm your product.”**

the harshest climate using Intercept Technology packaging. Case studies and more detail about reusability and recyclability are available on the Liberty Packaging website.

When asked what makes Intercept different from other available packaging, Joe Spitz, V.P. of Liberty Packaging offered, “Intercept plastic has copper embedded and acts as a sacrificial, neutralizing the corrosive gases within the package before they can harm your product. No volatiles, no outgassing, no oils - it’s safe, and works like no other packaging.”

EASTEC promises three days of straightforward insight into vital manufacturing technologies, progressive management strategies, the latest lean thinking, and clear advice on making operations greener. Whether it's multi-tasking machine tools, waterjet cutting, EDM, or metrology, EASTEC provides attendees the ability to make instant product comparisons and get advice their operation can use now.

Find Liberty Packaging and Intercept Technology Packaging in Booth 3306 at EASTEC.
